

Please find below the daily C19 update, which can be shared more widely.

SCC DAILY STATEMENT 27/05/2020

Please remember to **STAY ALERT, CONTROL THE VIRUS, SAVE LIVES**

With best wishes,

Matthew Hicks
Leader, Suffolk County Council

Nicola Beach
Chief Executive, Suffolk County Council

Stuart Keeble
Director of Public Health, Suffolk County Council

Current UK Risk Level: HIGH

The [risk to the UK](#) remains high (as of 13/03/2020).

As of week commencing 11/05/2020, we're moving into Phase two (Smarter controls) of the Government's [recovery strategy](#). As per [PM's 11 May message](#), the country is in the process of moving [from Level 4 to Level 3](#) by the new COVID Alert System and taking the first step in relaxing lockdown measures – According to the PM's statement “Thanks to the hard work and sacrifices of the British people in this lockdown, we have helped to bring the R level down and we are now in a position to begin moving to Level 3, in steps”.

Please note the Government's messaging is now '*stay alert, control the virus, save lives*' (previously '*stay at home, protect the NHS, save lives*')

Current UK Situation

- As of 9am on 26 May, 265,227 people have tested positive. As of 5pm on 25 May, of those tested positive for coronavirus in the UK, 37,048 have died. You can view the latest UK dashboard and cases by local authority [here](#). Confirmed cases in Suffolk are broken down by Districts & Boroughs as follows:

<i>Ipswich</i>	<i>346</i>	<i>251.6 per 100,000 resident</i>
<i>East Suffolk</i>	<i>589</i>	<i>237.3 per 100,000 resident</i>
<i>Mid Suffolk</i>	<i>168</i>	<i>163.9 per 100,000 resident</i>
<i>Babergh</i>	<i>146</i>	<i>159.7 per 100,000 resident</i>
<i>West Suffolk</i>	<i>218</i>	<i>121.9 per 100,000 resident</i>
<i>Suffolk</i>	<i>1,467</i>	<i>193.4 per 100,000 resident</i>

- Health and Social Care Secretary's statement on coronavirus (COVID-19): 26 May 2020 – transcript [here](#)
 - For the first time since 18 March, I am very encouraged to confirm that yesterday there were no deaths from coronavirus recorded in Northern Ireland. Today's figures from the ONS show across the UK as a whole, the lowest number of deaths from coronavirus for six weeks. We are past the peak. We're flattening the curve.
 - **PPE** - We have now signed contracts to manufacture 2 billion items of PPE here in the UK. Around the world, we have signed deals with over 100 new suppliers, including agreeing contracts for a further 3.7 billion gloves. These new supplies mean we are not simply keeping up with demand - but are able to begin to replenish our stockpiles.
 - **Treatments** - We are beginning a new trial, for selected NHS patients, of an anti-viral drug, called remdesivir. Early data suggesting it can shorten recovery time by about around four days. This is probably the biggest step forward in the treatment of coronavirus since the crisis began.

- Archive of slides, datasets and transcripts to accompany coronavirus press conferences available [here](#).
- [National Voices: Letter regarding NHS COVID-19 tracing app to Matthew Gould \(NHSX CEO\)](#) – The letter raises concerns that certain groups can't or won't take advantage of the app and that much more needs to be done for these groups, either by supporting them to take advantage of this technology, or by providing them with alternatives where needed.
- [BBC: Local lockdowns will be used to suppress 'flare-ups'](#) – Today (27 May) we'll get more details on plans to impose local lockdowns to deal with flare-ups of the virus in England. It could see schools, workplaces or wider areas shut down. This would be part of the test, track and trace system designed to prevent a second wave of infections. Mr Hancock said: "We have a system that we're putting in place with a combination of Public Health England and the new Joint Biosecurity Centre, along with the local directors of public health who play an absolutely crucial role in the decision-making in the system."
- [BBC: Global picture](#)
 - Latin America has now become the centre of the pandemic. Brazil has by far the highest recorded death toll in the region, and with the rate of testing very low, the true figure will inevitably be far higher.
 - US is nearing the grim milestone of 100,000 lives lost.
 - In Europe, Spain is beginning a 10-day period of national mourning in memory of the almost 30,000 people who have died. France has announced a bail-out for its struggling car industry, and Denmark has reopened its borders to couples who were divided by the lockdown.

Suffolk

Suffolk recycling Centres update: Following the successful re-opening of Suffolk's Recycling Centres, 2,068 additional appointments are now available each week to enable more people to recycle their waste. Two weeks ago <Thursday May 14> all of Suffolk's 11 sites re-opened on an appointment only basis and since then, 95% of all slots have been booked. This amounts to 28,500 appointments. The booking system has proved an efficient and effective way of allowing people to easily dispose of their rubbish and help manage demand on the service, and has been given widespread public support. It has helped reduce traffic disruption on roads around the sites, and supported social distancing on site for staff and members of the public. For more information [click here](#)

Slow Down, Save Lives: With the roads significantly quieter due to the covid-19 pandemic some drivers may be more likely to speed. Therefore Police in Suffolk will be targeting speeding drivers as part of a nationwide enforcement campaign starting next week, whilst promoting the message #SlowDownSaveLives. The initiative, which is co-ordinated by the National Police Chiefs' Council, will run from Monday 25 May until Sunday 7 June, and will see an increased amount of checks and enforcement across the county. Officers will be

speaking with drivers during the campaign, aiming to highlight the dangers of speeding and informing them of the risks and consequences that driving above the limit can have. For more information [click here](#)

Sizewell update: The Council Leaders of East Suffolk Council and Suffolk County Council have offered a joint response following submission of EDF Energy’s application for a Development Consent Order to build a new nuclear power station at Sizewell. Whilst both councils have been supportive of EDF Energy making the DCO submission, they continue to call on the energy provider to ensure they talk to the two local authorities before triggering the formal Section 56 process and timescale which includes a period of formal public engagement. With the ongoing Covid-19 pandemic, there is a high level of concern that the current period of social distancing and restricted movement will not give the community its fullest opportunity possible to engage with the planning process. Over the next 28 days, the Planning Inspectorate has to assess EDF Energy’s submission and determine if they are willing to accept it for Examination. During this period, East Suffolk Council and Suffolk County Council will be asked, as ‘host’ local authorities for their opinion on the adequacy of consultation that EDF Energy has carried out in advance of the submission. If the application is accepted by the Planning Inspectorate after the 28 day period, both councils expect to work closely with the Planning Inspectorate and EDF Energy to set an appropriate start time for the Section 56 period, which is a formal time-specific planning process.
